INDUSTRY SITUATION

WERKGEWERSORGANISASIE
EMPLOYERS' ORGANISATION

Challenges

- Legislation starting to enforce a secure Document Storage Solution
- Syncing documents between operations and infrastructure
- Data loss due to hardware failure or unavailability
- Sharing documents and collaborating between co-workers
- End of life and replacement of hardware

Ideal Solution

- Sharing and collaboration on your intranet
- A place where employees can organize and collaborate on content, data, and news to stay on the same page
- Organize and manage content in libraries and lists with metadata, records management, and retention policies
- Use a data-loss prevention capability to identify, monitor, and protect sensitive information
- Do safer and more efficient business by utilizing a world class cloud infrastructure and capabilities backed by Microsoft

Desired Outcomes

- Environment that evolves and grows with the needs of your business
- Faster time to value from technology investments
- Harness the power of the cloud so you can do business anywhere, anytime
- Flexible, rapid and scalable deployment options
- Get peace of mind with trusted cloud offerings

AccTech Doculine

WERKGEWERSORGANISASIE
EMPLOYERS' ORGANISATION

Enhance your business by using the Cloud as your new document storage and sharing platform that assists in compliance and regulatory requirements

- A world class cloud infrastructure and capabilities backed by Microsoft
- Cloud Storage
- Enterprise-level productivity solution
- Sharing and Collaboration
- Organizations of any size

BENEFITS

WERKGEWERSORGANISASIE
EMPLOYERS' ORGANISATION

Simple sharing and seamless collaboration

- Empower sharing and collaboration on your intranet
- A place where employees can organize and collaborate on content, data, and news to stay on the same page

Cloud Storage Simplified

- Each user will receive 1 TB of personal cloud storage that can be used to store and share documents that sync with your PC/Mac
- File Storage and Sharing powered by OneDrive for Business stores files online, so they are always in sync and up to date

Microsoft Teams

- Create and customise teams
- Have conversations with the whole team
- Share documents and work together on documents
- Work on various office apps all in one place

Inform and connect your organisation

- Inform and connect your people with intranets and portals
- Share common resources and applications and broadcast your message with rich, dynamic pages

Intelligence and insight

- Rely on powerful enterprise search to find files, sites and people
- Built-in intelligence delivers the most relevant results and helps you discover information and expertise around you
